

HESHBON HL-410A

Interactive bay scissor lift 4 tons

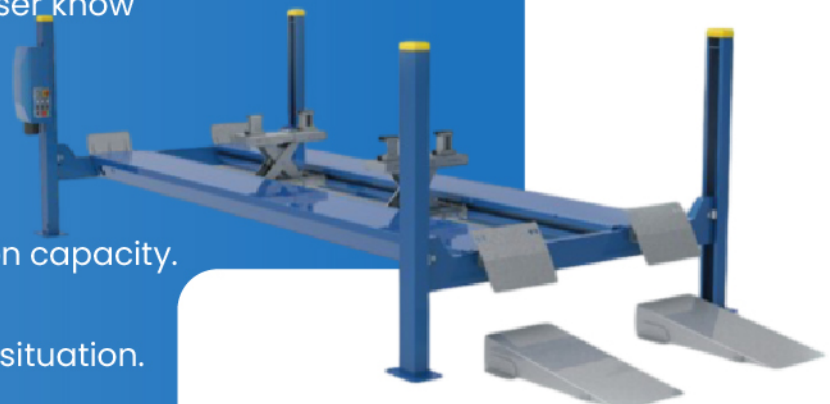

A high-performance scissor lift designed for general service and inspection bays. Compact yet powerful, it offers safe and quick lifting for a wide range of passenger vehicles.

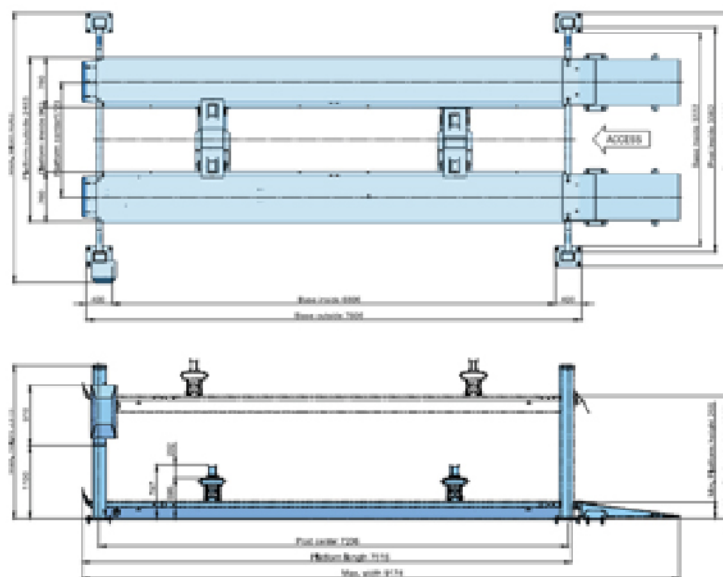

FEATURES

- Hydraulic cylinder located in the fixed platform and is thus perfectly protected.
- High resistance galvanized and pre-stretched lifting cable.
- Adjustable parking ratchet rails ensure the platforms and cross members remain horizontal within 4 wheel alignment tolerances.
- Automatic spring loaded eccentric brake system in the event of cable breakage ensures complete stability.
- Self-lubricated large diameter pulleys and maintenance-free bushes.
- Automatic alarm function to let the user know the wire exchange cycle.
- Auto control for center rolling jack.
- Cylinder & power pack ability for 10 ton capacity.
- Lock release lever for the emergency situation.
- Hydraulic two-level 5 ton scissor jack. (OPTION)

LAY-OUT
